

**BRANDS**

**Knapp Energy** inventories over 800 lubricant items and support products. We have partnered with several lubricant brands to provide our customers with a comprehensive assortment of quality products and lubricant services. Our customers have come to realize that our product offerings and services have earned us the right to be called SW Michigan's most complete lubricant distributor.

**Brad Penn Lubricants** is the last fully American Lubricant Line...

Refined and Packaged by American Refining Group for over 125 years, Brad Penn underwent a name change when the Kendall name was sold in 1997. Brad Penn is the only lubricant that can track its life from the well to the finished product. Historical performance, quality and a great price make this lubricant line hard to beat!

**Total Lubricants** is part of the fifth largest publicly-traded integrated international oil and gas company and a world-class chemicals manufacturer. With operations in more than 130 countries and over 96,950 employees, Total engages in all aspects of the petroleum industry, including Upstream operations (oil and gas exploration, development and production, LNG) and Downstream operations (refining, marketing, trading and shipping of crude oil and petroleum products).

Total is a worldwide leader in lubricant production and performance... they have built a lubricant reputation in the high technology foreign car market, they are the factory fill and the oil of choice for many of the world's heavy duty engine OEMs, and they are a world leader in the industrial and manufacturing lubricants and oils.

Don't see a brand or specific product that you are looking for? Please contact our office for help! Knapp Energy partners with several other lubricant distributors across the country, and we often can get access to a specific lubricant item through our partner network. Once we get to know your requirements, we can often adjust our warehousing to carry the items and help streamline your lubricants management program.
